Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Online

Brief describe the provision in LMS to be used by HEI :-

HEI provides an integrated online platform for teaching, learning, academic administration, and learner support. The LMS facilitates: • Online learner registration and course enrolment • Delivery of e-content including videos, PDFs, presentations, and interactive materials • Conduct of live virtual classes and recorded sessions • Discussion forums, messaging, and learner–faculty interaction • Online assignments, quizzes, examinations, and evaluation • Attendance monitoring and learner progress tracking • Academic analytics and report generation • Integration with video conferencing tools, digital libraries, and assessment systems • Secure access through web and mobile platforms with role-based authentication The LMS supports blended and online learning delivery with interoperability standards such as SCORM, LTI, and API integration, ensuring scalability, accessibility, and effective academic management.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

https://vimeo.com/1190677338?share=copy&fl=sv&fe=ci

Assessment mechanism	The weightage for different components of assessments for both Open and Distance Learning mode and Online mode shall be as under: (i) Continuous or formative assessment (in semester): Maximum 30 percent. (ii) Summative assessment (end semester examination or term end examination): Minimum 70 percent. • Midterm and Semester End Examinations are followed in ODL & OL programmes. • Substitute Examinations are conducted for ODL & OL learners for those who missed MIDTERM examinations. • Students are permitted to appear for Supplementary Examinations.
Identified technological interface and interoperability	1. The LMS provides a web-based user interface accessible through desktops, laptops, tablets, and mobile devices. 2. It supports multi-user access for administrators, faculty members, learners, and evaluators through secure login credentials. 3. The platform integrates with: a. Student Information Systems (SIS) b. Online assessment tools c. Video conferencing platforms d.Digital libraries and e-content repositories e.Email and notification systems 4. LMS enables seamless exchange of learner data, attendance, grades, course materials, and assessment records across integrated systems. 5. The system is compatible with commonly used browsers and operating systems, ensuring accessibility and scalability. 6. The LMS supports integration with synchronous and asynchronous learning tools for online and blended learning delivery.
Learner's Authentication Requirements	For ODL learners Physical verification done during the examination and classes. (Hall ticket, Aadhaar and Student ID card) For OL learners login to LMS access through learners credentials learners can login to Secured browser for examination faculty can do Remote proctoring. In addition , auto proctoring mechanism available.
Learner Registration - through a web application	Learner registration is carried out through a secure web-based application integrated with the Learning Management System. The online registration system enables learners to: Create user accounts Submit application forms Upload required documents Pay semester and examination fees through online payment gateways Receive automated confirmation and login credentials The application supports authentication, data validation, and role-based access for students, faculty, and administrators. Registered learners are automatically mapped to programmes, courses, and learning resources within the LMS. The system maintains a centralized digital database for learner profiles, enrolment records, attendance, assessments, and academic progress. The web application is accessible through desktops and mobile devices and supports secure data transmission and storage mechanisms.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	ODL • Weekend classes are being conducted for Open and Distance Learning Programmes. • Providing course materials, ICT enabled teaching methods, assessments, and student support services are designed to meet the diverse needs of distance learners and facilitate meaningful learning experiences through LMS. • Access to eLM • Access to SLM as Flip book model • Attendance log record is maintained • Question papers are prepared as per the Bloom's taxonomy. To ensure the quality instructional design DAAC audit is conducted. OL • Providing Regular live session class • Access to eLM • Access to SLM as Flip book model • Discussion forum and MCQ are available • Feedback mechanism is enabled through LMS. • Grievances redressal mechanism is available. • Self-assessment mechanism through LMS.
Payment Gateway –using Digital Payment system	All the fee payment through online portal only
Tracking the delivery of a Course or programme	The Learning Management System enables continuous tracking and monitoring of course and programme delivery through an integrated digital platform. The system tracks: Course progress and completion status Learner attendance and participation Access to e-content and learning materials Assignment submission and evaluation Online assessment performance Faculty engagement and instructional activities Real-time dashboards and analytics help administrators and faculty monitor learner progress, academic performance, and course effectiveness. Automated reports are generated for academic monitoring, quality assurance, learner support, and regulatory compliance. The LMS supports alerts and notifications for pending activities, assessment schedules, and learner engagement. The platform ensures transparency, accountability, and effective academic management throughout the delivery of the programme.

Technical Know-how or Skills Requirements	Basic computer literacy and internet browsing skills are required for learners and faculty to effectively use the Learning Management System. Orientation programmes, user manuals, video tutorials, and technical support facilities are provided to learners and staff for effective utilization of the system. Users should be able to: Access and navigate the LMS Download and upload learning materials Participate in online classes and discussion forums Submit assignments and attend online assessments Use email and digital communication tools Faculty members should possess skills in: Digital content creation and course management Conducting online teaching sessions Uploading e-content and assessment materials Monitoring learner progress and generating reports Administrative personnel should have knowledge of: Learner registration and database management LMS administration and user management Academic tracking and report generation

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The HEI has established to adequate ICT infrastructure facilities for the effective implementation and delivery of online courses through the Learning Management System. The ICT facilities include: High-speed internet connectivity with adequate bandwidth for uninterrupted online learning activities Dedicated servers/cloud hosting infrastructure for LMS deployment and data management Smart classrooms and multimedia-enabled studios for content creation and live online teaching Video conferencing facilities for virtual classes, webinars, mentoring, and learner interaction Computer laboratories with updated hardware and software resources Digital library access including e-books, e-journals, and online learning resources based on the learner's request Data backup, cybersecurity, firewall, and secure authentication mechanisms Technical support center/helpdesk for learners and faculty members Facilities for online assessments, proctored examinations, and learner analytics Mobile-compatible and browser-enabled access to LMS and e-learning resources Audio-video recording and editing facilities for development of e-content in four-quadrant format The ICT infrastructure is designed to ensure accessibility, scalability, reliability, and seamless delivery of online education programmes.
